

### **BMX North Region report to the 2017 NW AGM**

We have had an exceptionally successful year as a region, with the structure being set out from the first regional committee meeting

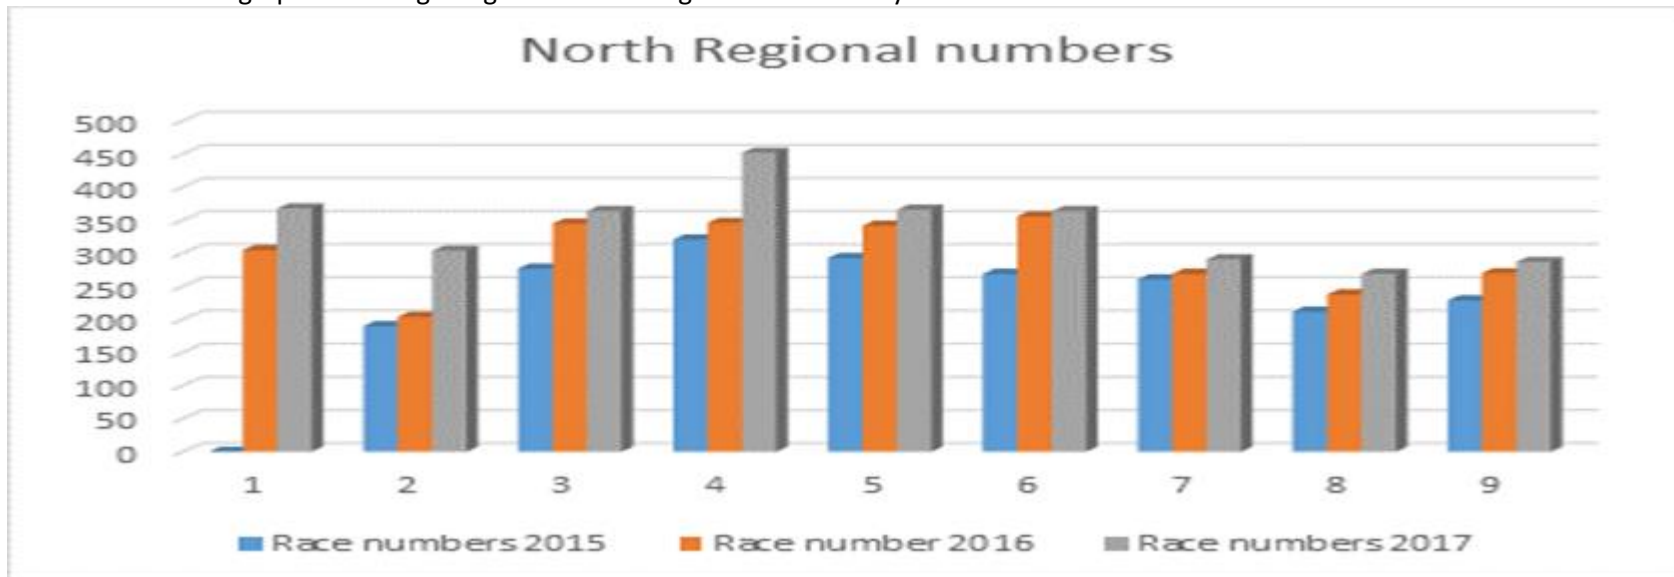

We set rules and made them clear to every club, so that come race day there was no confusion, and any complaints were to be relayed to the committee by a nominated club liaison officer, this was to ensure our volunteers didn't take any unnecessary grief from parents.

The race numbers have exceeded previous years, with more female and novice riders coming to race the regionals, this, we believe is down to making the regionals as relaxed and as fun as possible

The Brits was, by the accounts of previous attendees, the best they have been to. We hired a Marquee to encourage the north region to be all together. All riders received a new race shirt.

We also had elite rider Kyle Evens presenting the regional trophies to all the riders, which was fantastic, especially for the younger riders.

Please see below a graph indicating the growth of the region over the last year
