Statement of Policy (not to exceed 100 words)

- to demonstrate a knowledge of and commitment to British Cycling and its objectives

I have been an active member of British Cycling for many years. I feel that everybody from the daily commuter riding to work to our great Olympians, men and women, must be catered for. With British Cycling's ever expanding membership we need to understand what all our members want and need. In this age of gender equality, I believe it is time to widen our elected membership of the National Board to show that we are an open and inclusive sporting body for the 21st Century.
