

British Cycling North West Region 2020 AGM report **North West Cycle Speedway**

The 2020 cycle speedway season saw the first round of North & Scotland League matches held on 15th March, before the suspension of activities two days later. All Regional competitions, along with national and international ones, have been abandoned for the remainder of 2020. Since the resumption of activities, at the start of July, the Astley & Tyldesley and Bury clubs have been staging weekly club nights. After canvassing clubs and riders for their interest about a return to racing, it was decided to hold a six round Manchester Individual Grand Prix series, on Sunday afternoons. The first two rounds have been held, with 21 riders turning out each time, which is half the usual expected attendance. Riders from the Astley & Tyldesley and Bury clubs have been joined by riders from the Sheffield club, but none from Stockport.

If you have any questions or an enquiry relating to anything NW Cycle Speedway related, please don't hesitate to contact me on the email below.
